

DOMO 4-1

Code: K641

Description

Climbing frame with stylistics referring to the shapes of the snail and vivid colors. Construction and slide made of stainless steel resistant to weather conditions and intensive use. Posts are ended with balls so construction looks like a snail horns. Floor is made of HPL with non-slip texture. Thanks to this solution the floor is soft, safe and it is not heating during sunny days and it is not freezing during the winter.

Colorful playground set consists of four towers with two covered by roofs.

* All stainless steel Limako products are available in galvanized and powder painted version.

Playground device consists of

- 4x towers which two have roofs
