

SNAKE LUMO PLAY

Code: GM1652-LP

Description

Innovative seesaw with LUMO PLAY function! This fun-filled ride features an impressive combination of light and sound, powered entirely by its motion. With colorful LED lights on the metal frame, you will see magic in kids' eyes. The LUMO PLAY serpent-shaped seesaw is ingeniously outfitted with a sophisticated "Slow System" mechanism, meticulously engineered to moderate the speed of motion gracefully.

To activate the lighting and music functions, simply start moving the device. Colorful LED lights are placed in the frame of the swing.

And the best part? The LUMO PLAY seesaw generates its own electricity from its motion, so no external connection is required. Not only is it an eco-friendly solution, but it also means the fun never has to stop.

But that's not all – with the LUMO PLAY app, users can fully control the seesaw's light and sound features. Change the color of the LEDs, adjust the volume of the music, and customize your own light show with just a few taps of your smartphone. For added convenience, the app also includes admin settings. This feature allows you to control the sound and light modes fully. For example, if you want to enjoy a peaceful night's sleep, you can totally switch off the sound and light features during certain hours. Once the settings are in place, the device will automatically follow them, so you don't have to worry about adjusting them again.

This interactive and modern seesaw will not only provide children with an exciting ride, but it will also stimulate their imagination and sensory skills through the lights and sounds. The LUMO PLAY function makes this seesaw an innovative and unique addition to any playground or backyard, providing children with a new level of fun and entertainment. Additionally, the mobile application makes it easy to control and customize the light and sound settings, ensuring a personalized experience for each child.

Note! The seesaw supplied without bumpers.

Playground device consists of

- LUMO PLAY function lights and sound
- 1 x pipe-shaped bracket
- 1 x arm bent in the letter "S" - movable,
- 2 round handles

Product details

- Dimensions: (LxWxH): 3,28 x 1,58 x 0,80 m
- Safety zone: 3,58 x 5,29 m
- Free fall height: 0,86 m
- Certificate in accordance to EN 1176-1, 1176-5 safety norm

Materials

- Structure made of steel pipes, galvanized and powder painted. 88,9 x 2,6; 133,0 x 4,0; 33,7 x 2,0 mm,
