DOMETO 2-1
Code: K521

Description

A two-tower colourful play equipment with a slide, a bridge and an openwork roof. The design takes its inspiration from the shape of a snail. A high-performance, weather-resistant welded stainless steel construction (no clamps used). The posts are finished with spherical decorative elements so that the appliance resembles snail horns. The walls of the slide, tower and balustrades are made of HDPE board. The floor is made of an HPL panel with an anti-slip texture, which ensures safe use and prevents it from heating in the sun and freezing easily in winter. The playground set complies with EN 1176 norm.

Colourful, small playground sets dedicated to young children.

* All stainless steel Limako products are available in galvanized and powder painted version.

Playground device consists of

- 8 x construction pipes (including four bent ones), finished with spherical decorative elements that resemble snail antennae,
- 2 x towers with an openwork arched roof
- 1 x slide with stainless steel handrails and sides finished with an HDPE board
- 1 x entrance walkway with round overlays for ease of climbing, rope and handrails.
- 2 x diagonals climbing walls with holes,
- 2 x entrance ladders in the form of a spiral,
- 2 x platforms with anti-slip texture, connected by a bridge with a floor with anti-slip texture and rope railings

Product details

- Dimensions: 5,60 x 2,01 x 2,80 m
- Safety area: 9,10 x 5,01 m

- Free fall height: 0,9 m
- The height of the platform: 0,9 m
- Age: above 3 years
- A certificate confirming compatibility with norm EN 1176

Materials

- Structure and additional elements (handrails, handles, brackets, etc.) are made of stainless steel AISI 304
- Pipe diameter 76.1 x 2.0mm (including two bent pipes), 33.7 x 2.0mm and 25.0 x 2.0mm
- Profiles: 40 x 40 x 2.0 mm
- 10mm thick HPL platform with non-slip texture
- The sides of the slide, tower and balustrades are made of 15 mm thick, 3 layers coloured HDPE plastic
