

# DOMETO-I 2-3

Code: K523-I

## Description

An integrated set with vibrant colours consisting of two towers with latted roofs, three straight slides, a movable bridge with four round platforms, an entrance ramp with ropes and handrails for climbing, an inclined climbing wall with holes, a spiral entrance ladder, a sensory board with two colourful drums that produce maraca sounds, a sensory board with five tubular chimes that produce sound, a sensory board with a rotating wheel that produces rain sounds, a sensory board with a clock, a sensory board with sliding elements, an abacus, and a sandbox with screens. The set has a snail-like design aesthetic. The construction is made of stainless steel, resistant to weather conditions and heavy use, with welded construction (the use of a clamp is not allowed). The structural pipes (including six bent pipes) are finished with spherical decorative elements resembling snail antennae. The floor is made of HPL with an anti-slip texture, ensuring user safety and preventing overheating in the sun and easy freezing in winter.

## Playground device consists of

- 20 structural pipes (including 6 bent pipes) finished with spherical decorative elements resembling snail antennae; the pipes must form a single unit (without joints),
- 2 towers with platforms and 3 curved latted roofs,
- 2 slides made entirely of stainless steel (slide, sides, and handrails) with sides finished with HDPE sheet,
- 2 square platforms with an anti-slip texture,
- 1 bridge connecting two towers with 4 round platforms with an anti-slip texture, suspended on chains,
- 1 entrance ramp with round overlays, a rope, and 2 handrails made of stainless steel bent in an arc,
- 1 spiral entrance ladder,
- 1 inclined climbing wall with holes,
- entrance steps with handrails made of stainless steel bent in an arc, consisting of 3 posts of different heights, topped with colorful round overlays made of HDPE sheet, ladder posts made of stainless steel,
- 1 sensory board with two colorful drums that produce maraca sounds,
- 1 sensory board with five tubular chimes that produce sound,
- 1 sensory board with a rotating wheel that produces rain sounds,
- 1 sensory board with a clock,

- 1 sensory board with sliding elements,
- 1 abacus,
- 1 sandbox with four screens.

### **Product details**

- Device dimensions (LxWxH): 7.82 x 5.37 x 2.80 m
- Safety zone: 10.82 x 8.87 m
- Free fall height: 0.9 m

Dimensional differences of up to +/- 5% are acceptable.

### **Materials**

- The structure and additional elements (handrails, handles, brackets, etc.) are made of stainless steel AISI 304, with pipes of diameters 76.1 x 2.0 mm (including two bent pipes), 42.4 x 3.6 mm, and 33.7 x 2.0 mm, and profiles: 40 x 40 x 2.0 mm; the pipes must form a single unit (without joints),
- The slide, sides, and handrails of the slide are made of stainless steel,
- The platforms and the sandbox bottom are made of HPL with a 10 mm thickness anti-slip texture,
- The roof, entrance ramp, parts of the slide sides, climbing wall, and colorful disks are made of three-layer, colored HDPE with a thickness of 15 mm.
