

EDITO 1

Code: K811

Description

Multifunctional board for play. The device for the playground consists of 2 posts and a colour panel. The posts are made of stainless steel, and the panel is made of HDPE material.

If you prefer, you have the option to mount the board directly onto the wall. In this scenario, rather than relying on metal legs for ground-based support, we offer specialised mounting elements designed specifically for wall installation.

* All stainless steel Limako products are available in galvanized and powder painted version.

Playground device consists of

- 2x posts
- 1x panel

Product details

- Dimensions: 0,9 x 0,10 x 1,25 m
