

ESKALO 7

Code: K707

Description

Climbing frame with stylistics referring to the shapes of the snail and vivid colors. Construction and slide made of stainless steel resistant to weather conditions and intensive use. Posts are ended with balls so construction looks like snail horns. The floor is made of HPL with non-slip texture. Due to this solution, the floor is soft, safe and it is not heating during sunny days and it is not freezing during the winter.

This playground set is dedicated to teenagers.

Climbing structure is designed like a fitness device to keep a young person healthy, energetic and lively.

* All stainless steel Limako products are available in galvanized and powder painted version.

Playground device consists of

- 4x climbing ladders in different shapes
- 4x frames which 2 are connected with each other
- 8x wheels suspended on the chains
- 2x climbing walls with holes
- 2x bridges with wheels suspended on the chains and connected with each other by big circle
